“...like the Manson family hosting HI-5...”

The bane of right-wing Melbourne shock-jocks and bar-staff in Adelaide, **Jihad Against America** released their debut posthumous long player, “**Live after Deth**”, just in time for the end-of-financial year gift-giving season.

Believing in very little, and scorning all that remains, this release exposes **JAA** in full flight. Slamming into the twin towers of The Tote’s speaker stacks, spewing flaming bile in all directions, leaving no-one alive to take the blame, this was the end of their 5-year plan.

Imparting the only 14 songs that they wrote and spinning at a blistering 45rpm, this is 25 minutes of your life you’ll never get back.

Jihad Against America demortified to ambush us one last time. They launched ‘*Live after Deth*’, at **The Tote** on **Saturday July 1**. Their accomplices for the evening were **The Abandonment**, **The Dacios**, **The Kamikaze Trio** and **DJ Stabs**. Now it’s over.....

“...helping to create a world of indifference...”
